Numb. 3426

The London Gazette.

Published by Authority.

From Thursday Sept. 8. to Monday Sept. 12. 1698.

Venice, Auguſt 29. N. S.

SIgnior *Aluizio Gritti* is choſen one of the Procurators of St. *Mark*, having on that account given 25000 Ducats towards the Expences of the War againſt the Turks. We hear from *Rome*, that the Pope has appointed Signior *Gozzadini* to treat with the Emperor's Ambaſſador, for adjuſting the Difference between him and the Court of *Vienna*, and concerning certain Fiefs in *Italy*, which both the Emperour and the Pope lay claim to; and that Signior *Pauluzzi*, at preſent Nuncio in *Poland*, is appointed by the Pope to go to *Vienna* upon the ſame Buſineſs. The French Gallies, under the Command of the Bailly *de Naoilles*, ſailed the laſt Week from *Civita Vecchia* for *Naples*; but by bad Weather and contrary Winds were obliged to return into that Port.

Lemberg, Aug. 20. The King of *Poland* having accompanied the Czar of *Muſcovy* to *Zamoſe*, four Miles from *Rawa*, and ordered a ſtrong Party of Horſe to attend him as far as *Smolensko*, took his leave of that Prince, and continued his Journey hither. On the 15th the King made his Publick Entry into this City in a very ſplendid manner, being accompany'd by the Princes *Alexander* and *Conſtantine*, Sons of the late King of *Poland*, the Crown-General, the Great Chancelor of *Lithuania*, the Biſhops of *Raab* and *Ploſko*, divers Palatines and Caſtellans, and a great number of Officers and Gentlemen. He was received at the Gates by the Magiſtrates, who preſented to him the Keys, which he return'd to them, as is uſual on theſe Occaſions. Then the King came to the Catheral, where *Te Deum* was ſung; after which, he made a Viſit to the Queen-Dowager, which ſhe return'd the next day, being accompany'd by the Princes her Sons, who have ſince been ſeveral times to wait upon him; and yeſterday the King made another Viſit to the Queen-Dowager. An Expreſs is arrived here from *Vienna*, with an account of the Progreſs that has been made in the Negociation for a Peace with the Turks, in which the Emperor deſires the King would concur with the reſt of the Allies; and that he would ſend his Miniſters with full Powers for concluding the ſame, with all the ſpeed that may be, to the Place of Treaty: Whereupon the Council has been aſſembled; and it was reſolved to proceed to the choice of the Plenipotentiaries, who it is thought will be the Palatines of *Lenezeye* and *Mariembourg*. Several Councils of War have been held, in which the Projects to be put in execution this Campagne were debated; but it is not yet known whether the Siege of *Caminiec*, or the Expedition to *Moldavia* will be undertaken; and 'tis probable no final Reſolution will be taken therein, before the Meeting of the Great Council of War, which is to meet at *Halitz*, preſently after the General Rendezvous of the Army; to which place, the King's German Forces continue their March, tho' by ſlow Journeys, the Country being all over-flow'd, and the Roads very much ſpoiled by the continual Rains we have had for theſe eight days paſt. The Kings Troops from *Hungary* are come within ſix Miles of this City, and the Forces from *Saxony* are not above twelve miles off; ſo that it is hoped they will in a few days be all joined together. We have received Letters from *Lithuania*, which ſay, That ſome of the Gentlemen of that Dutchy, being diſſatisfied at the Conditions of the Agreement made at *Warſaw*, between the Houſes of *Sapieha* and *Oginski*, which they think too favourable to the former, have taken up Arms again, and have choſen one *Zaranska* to Command them; which may hinder the *Lithuanian* Army from marching out of that Province this Summer.

Vienna, Sept. 3. Mr. *Schreyer*, my Lord *Paget*'s Secretary, having received his Diſpatches from the Emperor's Miniſters, ſet out from hence yeſterday for *Belgrade*. It is ſaid that the Negociations for a Peace are in a great forwardneſs; and that moſt of the Preliminaries being already agreed, the Emperor will ſhortly ſend his Plenipotentiaries to *Peter-Waradin*, to begin the Conferences with thoſe of the Turks, for finiſhing this Great Work. General *Geſchwind* is gone from this place to *Inſpruck*, to take poſſeſſion of his Office of Prendent of the Council of War of Upper *Auſtria*; after which, he is to go and viſit *Fribourg*, and the other Places lately reſtored to the Emperor by the French, and to give Directions for repairing the Fortifications, and providing them with Cannon, Proviſions, and Ammunition. Our laſt Advices from the Imperial Army in *Hungary*, under the Command of Prince *Eugene* of *Savoy*, which are of the 27th of *Auguſt*, ſay, That they marched the 19th from *Illock*, and encamped that night between *Gloſcan* and *Bogaz*; the 21ſt they marched again, and pitched their Tents between *Futack* and *Peter-Waradin*: On the 23d they marched on, and encamped beyond *Peter-Waradin*; and the 24th they arrived near *Kobila*, where they were encamped, at the coming away of theſe Letters. That Prince *Eugene* of *Savoy* had ſent to *Buda* for the Train of heavy Artillery, and the Ammunition belonging to it; and to *Peter Waradin* for a Bridge of Boats; and that he had been, on the 26th, to view the Moraſs of *Villowar*, and had commanded a Detachment to go and build ſome Redoubts for the ſecurity of that Paſs, intending to obſerve the Enemy, who according to the freſheſt accounts, lay encamp'd on this ſide *Semendria*, and were making a Bridge of Boats over the *Danube* near *Banzowa*; but it was not known with what Deſign.

Frankfort, Sept. 10. The Elector Palatine continues at *Weynheim*. He has been to viſit the City of *Manheim*, and is expected here in a ſhort time. We hear from *Straſbourg*, that a Review has been taken of the Garriſon of that Place, and 4 Men disbanded out of each Company; and that the Sieur *Vauban* was ſtill at *Briſac*, which Place the French deſign to evacuate in a few days.

Bruſſels, Sept. 14. The Conferences about regulating the Forces to be kept on foot for the defence of the Spaniſh *Netherlands* are continued; and it is ſaid that Affair is in great forwardneſs. The Great Council of this City are aſſembled, to conſi-
